## Protect

... **our environment.** Medications disposed of down the toilet or in the trash end up in our water supplies and damage our environment.

... **our teens** from an epidemic of Rx abuse. 7 of the 10 most commonly abused drugs by teenagers are prescription medications. Teens get dangerous drugs

from family and friends—and their medicine cabinets.

... **our young children** from a leading cause of accidental poisoning.

... **our seniors** from misuse and mistakes.

... **your home.** Addicts are looking in as many medicine cabinets as possible—maybe even yours.
